Grub

Nastartovani z rescue shellu grubu

```
# Inspect the current prefix (and other preset variables):
set
# Find out which devices are available:
ls
# Set to the correct value, which might be something like this:
set prefix=(hd0,1)/grub
set root=(hd0,1)
insmod normal
normal
```

Centos6

Zapsani grubu na vsechny jednotky v raidu:

```
grub /dev/sda
 grub> root (hd0,0)
 grub> setup (hd0)
 grub> quit

grub /dev/sdb
 grub> root (hd1,0)
 grub> setup (hd1)
 grub> quit
```
